Mobile: 7583831735

Dear Mr. Jay Singh s/o Omprakash

This has reference to your telephone interview on Thursday , 24th January 2023, We are pleased to offer you the position of Research Associate in our organization for a period of 3 months in a probation period. You will also get training in R & D. You will have to carry out Analytical & reactions to prepare organic compounds. You will be given on-the-job training by the in charge of the Laboratory. We expect you to use this opportunity to your best to learn the skills of the techniques in analytical chemistry and synthetic chemistry.

You will perform the work taking safety precautions so that your health as well as your colleagues are not affected.

Your training performance will be evaluated after 3 months. On the successful completion of the training for 3 months you will be absorbed in our regular employment. During the period of your training, you will be provided with a stipend of Rs.10,000/pm during the training period.
